Atten: Mr. Dee C. Hansen State Engineer
200 Empire Bldg.
#231 East 400 South
Salt Lake City, Utah 84111

Dear Mr. Hansen;

Moon Lake Water Users Association, Dry Gulch Irrigation Company, and Sandwash Irrigation Company desire your office to appoint Commissioner services on the natural stream drainage known as Sandwash creek from its source through Sandwash Reservoir, and down to the Hancock lateral.

We have visited with the Associated Water Users Association, and with the Commissioner of the Uintah and Lakefork Rivers, Mr. William Christensen and they indicate it would be acceptable to give this responsibility to Mr. Christensen with your approval. So, we request Mr. Christensen because he is familiar with the problems on Sandwash Creek and knows the drainage very well.

We also request your decision by April 15, 1979 to help us have these services for the 1979 irrigation season.

Sincerely,

Lynn R Winterton, Manager
